

"The Best Mother" Award

In this world there are many mothers who don't get as much respect as the amount deserved .So therefore I bestow this award upon one person who has changed my life- my mother.

I am thoroughly dependent on her for my studies, food, material needs and emotional support.

I depend upon her for my studies because whenever I don't understand something, she explains and simplifies it for me. When my exams are near she helps me revise my work.

I also depend on her for my food. She cooks delicious food for me. She cooks different dishes so I am introduced to various kinds of food.

I depend upon her for my material needs because she takes me to bookstores and clothes stores so I can fulfill my needs.

I also depend on her for emotional support. Whenever I am feeling blue, she consoles me.

I therefore would like to thank my mother for her contribution to my life.

Aarya Shah.
